EXAMINER'S REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Art Unit: 3745

The instant invention is deemed to be a non-obvious improvement over the invention of U.S. Pat. No. 6,142,733. The improvement comprises the use of a guide blade having an angle of projection that increases toward its tip. In contrast, U.S. Pat. No. 6,142,733 discloses a guide blade with an angle of projection, i.e. pitch angle (E2), which decreases towards its tip. It would not have been obvious to one of ordinary skill in the art to modify the invention of U.S. Pat. No. 6,142,733 to provide a blade with a projection angle increasing toward the tip, since such an arrangement would diminish the desired performance enhancement provided by the decreasing angle arrangement of U.S. Pat. No. 6,142,733.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
